

Universidad Austral de Chile

Conocimiento y Naturaleza

Valdivia, May 16th, 2018

The **Conservation, Biodiversity & Territory Institute** at the **College of Forestry and Natural Resource Sciences of the Universidad Austral de Chile** invites applications for a tenure-track faculty position.

The ideal applicants should have a recognized expertise in forest or ecosystem health, through the analysis the dynamics of biotic and abiotic agents associated to the conservation of forest ecosystems using a broad perspective. He/She will have a background and research emphasis among the following areas: insects, fungi, micro organisms and/or invasive species.

The appointment is equally divided between the following duties: undergraduate- and graduate-level teaching, research, and services. Successful candidates will be expected to develop an externally funded peer-reviewed research program that achieves an international reputation in their area of expertise. Fundamental to these positions to demonstrate capacities to work across disciplinary and institutions. The appointed faculty member will mentor and advise undergraduate, graduate students, and post-doctoral researchers, and teach courses in their area of expertise.

Minimum Qualifications:

- An earned Ph.D. in fields related to Forestry or Environmental Sciences such as population biology, epidemiology, geography, biology, biostatistics, botany, wildlife conservation, or related discipline at the time of appointment.
- Demonstrated ability in conducting peer-reviewed research in areas of expertise with a corresponding publication record.
- Demonstrated ability and willingness to articulate science inside and outside the classroom to diverse audiences.
- Fluent in Spanish and English

To apply, please submit by email to conservacion@uach.cl

- Letter of intent and teaching statement
- Current CV using the following format https://www.uach.cl/bases/Curriculum_Normalizado_UACh.doc
- Copies of your most relevant publications
- Two letters of reference
- Copies of academic degrees and teaching certifications, if any.

Applications should be sent to concursos@uach.cl with a copy to conservacion@uach.cl with "Código 452018" in the subject line. **Application deadline is August 17th 2018** and desired availability to start as of November 1st, 2018.
