Do you have a **passion** for interaction with different stakeholders?

Do you want to start building your **professional network**?

If YES, show us your talent. We want to know your story and how your skills befit this role.

About Solar Provider Group

Solar Provider Group (SPG) is one of the world’s leading solar PV development companies. We specialize in the development, engineering, financing and operation and maintenance of commercial and utility-scale solar installations.

SPG Vision: Being part of the global energy solution by becoming the world’s preeminent renewable energy company.

What are we looking for?

We are currently looking for a dedicated individual to work with SPG’s Project Development team on our projects in Germany. We are seeking a talented, adaptable, and committed individual who desires to hone her/his expertise, support the development of solar PV projects and cares about a future powered by renewable energy.

The successful candidate will be supporting the full project development cycle, from land origination thru planning approval process and regulatory compliance to coordination and work with various stakeholders in Germany.

Type of Employment

A 2-3 month paid internship. There may be a possibility to apply for a fulltime position after the successful completion of the internship.

Get hands-on experience, your responsibilities will include:

- Support the research on compliance with planning and regulatory policies.
- Collect information from permitting authorities and regulatory agencies at all tiers in Germany.
- Assist with SPG's business development efforts including generating leads for land leases.
- Prepare sketch plans, site plans and preliminary drawings using various tools such as Google Earth and ArcGIS.
- Work with internal teams and external stakeholders.
- Provide broad range of administrative support and coordination on project related activities/tasks for a project.
- Prepare presentation materials for, and participate in, project related workshops, public hearings and others.
- Maintain, update, and organize project databases.

Qualifications and Skills:

- Possess SPG core values: Team-play; Tenacity; Sharing; Sustainability, Passion, and Ownership.
- Working towards an undergraduate degree or post-secondary diploma in Environmental Studies, Land Use or Urban Planning, Geography, Business, or related discipline.
- Experience researching, interpreting, and analyzing legislation and policy documents.
- Working knowledge of ArcGIS and with various planning and mapping tools.
- Must be willing to travel to visit various stakeholders including landowners, planners, municipal representatives and perform the site visits.
- Highly organized with strong attention to detail and commitment to high quality work.
- Work effectively in a fast-paced working environment.
- Fluency in German and English languages.
- Excellent interpersonal and collaboration skills with ability to interact with staff at all levels and a wide range of stakeholders.
- Driving license and having access to a car would be ideal.

Submission requirements:

- Please submit your resume in German **and** English language to: hr@solarprovidergroup.com
- Submission deadline: ASAP

We are an equal opportunity employer committed to seeking diversity in the workplace and we welcome or consider resumes from all qualified candidates.
