The Institute of Physical Geography and Landscape Ecology at the Faculty of Natural Sciences invites applications for a

University Professorship (m/f/d) of Salary Scale W2 NBesO in Digital Landscape Ecology

starting April 1st, 2022.

The scientific focus will be on digital mapping, modelling and analysis of landscape structures, processes and resulting ecosystem functions. In addition to the willingness for interdisciplinary cooperation in the fields of Geography, Landscape ecology, Geoinformatics, Agricultural and Environmental sciences for innovative mapping and assessment of ecosystem services at the Institute of Physical Geography and Landscape Ecology, cooperation with relevant institutions in Hannover is also expected. In teaching, the full spectrum of Physical Geography (including teacher education) has to be covered. In the Master's program "Landscape Sciences", an excellent representation of landscape ecology with modern concepts and methods is expected. The successful candidate will be expected to hold selected courses in English.

General responsibilities and conditions of appointment apply, in accordance with the Lower Saxony Higher Education Act (Niedersächsisches Hochschulgesetz - NHG). Details will be provided upon request.

Part-time employment can be arranged upon request.

As an equal opportunities employer, Leibniz University Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Preference will be given to equally qualified candidates with disabilities.

In its mission statement, Leibniz University Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places significant value on the intensive guidance and support of its students and on the university's close ties to the region and to Lower Saxony. Its professors are thus expected to be based in the Hannover Region.

Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will generally be given an employment contract.

For further information, please contact Prof. Dr. Benjamin Burkhard (Phone: +49 (0)511 762-3537, Email: burkhard@phygeo.uni-hannover.de).

Please submit your full application until April 20th, 2021 exclusively via the central Appointment Portal of the Leibniz Universität Hannover at:
